

INVESTMENT TEASER • RESCO INVESTMENT MODEL

Fund Commercial Solar. Earn Predictable, Asset-Backed Returns.

Co-own solar assets installed on vetted commercial rooftops. Host clients buy the power at a 20% discount to grid rates under a long-term Power Purchase Agreement — and you earn a share of that revenue for the life of the contract.

+ 40% Yr-1 depreciation

Why the RESCO Model

- **Predictable Cash Flow** — Revenue is fixed by a long-term Power Purchase Agreement with the host.
- **Tax-Efficient** — 40% accelerated depreciation in Year 1, plus 0% GST on power-sale revenue.
- **Asset-Backed & Diversified** — Capacity spread across many independent sites limits single-client exposure.
- **Fully Managed** — Ray2Volt handles installation, operations, and maintenance for the asset's life.

The Numbers

Illustrative 500 kWp Snapshot	
Investor Equity (80% share)	₹1,62,00,000
